**Question 1:**

I have a question based on an answer you gave to the question section about the annual budget. The usage given, is that per site, total for all sites, or an estimate of what would be vended from each machine?

**Answer 1:**

The amounts given were based on the last 12 months usage for our main site.

**Question 2:**

Also, how many locations are you looking to have machines set up at?

**Answer 2:**

At this time, we only have one site operational.
